## Features

- ★ EYESTAR is designed for the special purpose which will be useful on daily routine activities of every house. Basically it is working as a burglar Alarm when we are out of home as well as it will Switch OFF the water MOTOR automatically after the tank full. we only Switch ON the MOTOR and no need to worry about the overflow of tank.
- ★ Its Burglar Alarm function works with door sensor along with time delay for activate the alarm. if there is any trespass by some stranger it will start siren after very little time delay (20sec) who can not deactivate the siren with out dedicated key.
- ★ Its in built battery will operate the Alarm during power failure for one week.
- ★ Battery charge controller provided to keep the battery long life.
- ★ We can Switch On siren when require by using Emergency switch.
- ★ A special stainless steel float Water level sensor will work long time without failure.
- ★ Apart from Burglar alarm and Water level switch as a third package we will provide attractive DIGITAL CLOCK
