

# LD-SLT-H-V1.0 STREET LIGHT TIMER

## OVERVIEW

**LDX automations introduces street light Auto On/Off Timer switch, which can be used for streetlight applications in govt and private sector. It is designed with embedded technology with power ful coding which delivers successful operations. Our core focus is simplified the product to operate from very less attempts. It is empowered with maximum real time accuracy using high quality micro chips. It also available with wide range of time selection.**

### Technical specification

Operating voltage	220VAC
Watts	8000 Watts max
Package	Powder coated Rainproof cabinet
Manual mode	Yes
ON Time frequency	17.30,17.40,17.50,18.00,18.10 18.20,18.30,18.40,18.50,19.00
Off Time frequency	21.30,21.45,22.00,22.30,23.00 23.30,5.30,05.45,06.00,06.15
Dimension	14inch*7inch*6inch(B*H*D)
Weight	5kg

\*On/Off time selection available at customers requirement.

# LD-SLT-H-V1.0 STREET LIGHT TIMER

## Features

- **Embedded technology which delivers failure free operations with minimum power consumption.**
- **High accurate Real Time Clock along with long lasting Battery backup.**
- **Wide range of ON Time/ OFF Time Selection, Suitable for multi location application.**
- **Colour coded Key pad, which makes easy understand and easy operation.**
- **One touch MANUAL mode, for day time testing.**
- **24 Hour Time format, which avoids AM/PM misunderstanding.**
- **Alphanumeric LCD display.**
- **Rainproof powder cabinet.**
- **High reliable power relay.**

## Why LDX

LDX automation's moto is 'simply the intelligence'. It is enforcing continual focus on converting ideology into simplified and easy understanding materializations. All LDX products are designed towards reducing attempts to study the product operation. LDX ensures the product with quality and onsite customer feel.
