

LD-SNT-V1.0 SIGNAGE TIMER

OVERVIEW

LDX automations introduces sign board/bus stop sign Auto On/Off Timer switch, which can be used for multi purpose applications. It is designed with embedded technology with power ful coding which delivers successful operations. Our core focus is simplified the product to operate from very less attempts. It is empowered with maximum real time accuracy using high quality micro chips. It also available with wide range of time selection.

Technical specification

Operating voltage	220VAC
Watts	2000watts(10A)
Package	Powder coated Rainproof cabinet
Manual mode	Yes
ON Time frequency	17.30,17.40,17.50,18.00,18.10 18.20,18.30,18.40,18.50,19.00
Off Time frequency	21.30,21.45,22.00,22.30,23.00 23.30,5.30,05.45,06.00,06.15
Dimension	23.5cm*14cm*7cm(H*B*D)
Weight	2kg

*On/Off time selection available at customers requirement.

LD-SNT-V1.0 SIGNAGE TIMER

Features

- ❖ Embedded Technology which delivers failure free operation with less current consumption.
- ❖ High accurate Real time clock along with battery backup.
- ❖ Wide range of on time/off time selection which can be adaptable for multipurpose application.
- ❖ Colour coded Key pad to understand and operate the timer easily.
- ❖ Manual mode.
- ❖ 24Hour Time format.
- ❖ LCD display.
- ❖ Rainproof cabinet to use at outdoor application.
- ❖ High reliable relay.

Why LDX

LDX automation's moto is 'simply the intelligence'. It is enforcing continual focus on converting ideology into simplified and easy understanding materializations. All LDX products are designed towards reducing attempts to study the product operation. LDX ensures the product with quality and onsite customer feel.
